T H E   A R T   O F   M A T T E R

The art of water, the shape of design.

Acquapazza does not create simple bathroom furnishings.

It creates sensory experiences.

From matter, form comes to life.

From form, emotion.

Every product is born from a vision:  
that of transforming every environment into a  
place of well-being and timeless beauty.

Each of our products is the result of artisan  
knowledge that dialogues with technology, it is  
the material that takes shape to become  
emotion.

We do not follow trends: we anticipate them.  
We work on each project like a tailor-made suit,  
because well-being is a question of style.

# About us

For over 20 years, Acquapazza has been shaping wellness design.

Born as a creative workshop for the processing of Corian® DuPont™, today we are interpreters of a made in Italy style that blends technology, craftsmanship and architectural vision.

# *acquapazza* collections

Our collections are born from a clear design idea: combining function and beauty, material and lightness, rigor and softness.

Each line tells a story. Each piece is designed to integrate harmoniously into residential, hospitality and wellness contexts.

With 832 modules available in 48 finishes,  
all customizable.

It is always possible to create a custom  
bathroom furniture project.

# acquafarza elements

ELEMENTS is much more than a collection: it is the story of an essential design that meets the excellence of Italian craftsmanship.

Made of Corian® Solid Surface, our accessories come to life thanks to the precision of CNC technology and the mastery of artisan hands, which make each creation unique and unrepeatable.

For over ten years alongside DuPont™, we have been designing objects that combine functionality, aesthetics and emotion.

# PURO

*acquapazza*  
collections

PURO.  
Only Corian®, the whole soul of  
Acquapazza.

A collection that celebrates the purity of  
the material, the precision of the design  
and the strength of the artisan tradition.  
A complete, essential and long-lasting  
system, designed for those who  
recognize excellence at first touch.

# Play with Matter

## *acquapazza* collections

PLAY with Matter is a modular and customizable project that was created to adapt, surprise and last. Each element is made with precision technologies and manual finishing that enhance the artisan excellence. Doors, sides and grooves are dressed in five exclusive finishes – from Corian® to Fenix®, from natural wood to lacquered – and are completed with tops and sinks in 22 variants, between solid colors and material textures.

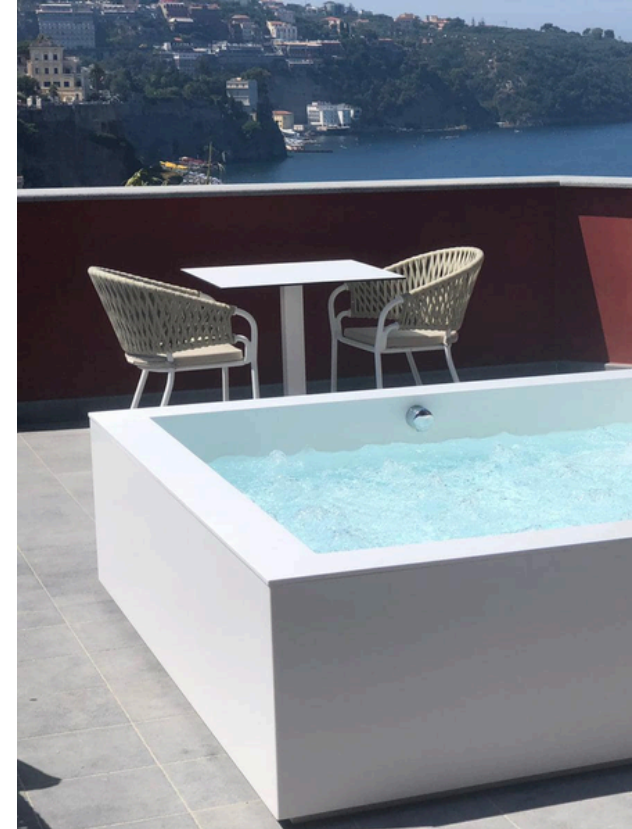

Every project is unrepeatable.  
Every detail,  
deeply Acquapazza.

# Big projects, signed *acquapazza*

From prestigious hotels to international headquarters, from the nautical sector to transport, we create custom furnishings for the most important brands. We combine artisan excellence with the most advanced technologies to offer “turnkey” solutions designed ad hoc, always with the unmistakable Acquapazza style.

In every project signed Acquapazza there is a  
gesture, a vision, a material that becomes a story.  
Because every space for us has a soul.
